## THE DISPOSSESSED

### Chronicles of the Desterrados of Colombia

---

**Here in their own words are the stories of desterrados, or "dispossessed" - the thousands of Colombians displaced by years of war and state-backed terrorism, funded in part by U.S. aid to the Colombian government.**

The people whose stories Molano tells are not social activists. They do not provide political or structural explanations of their lives; they do not tell stories of coming to consciousness. Yet together their stories add up to a powerful analysis of today's Colombia, and should indeed inspire U.S. readers to challenge the U.S. policies that continue to kill, impoverish, and displace the people of Colombia.

**From the foreword by Aviva Chomsky**

When they murdered Jaime Garzón, however, I knew I could not go home soon. So I picked out a large work table, sharpened my pencil and began this book. On completing it, I understood—and bowed my head in profound respect—that in spite of its pains, the drama of my exile is but a pale reflection of the terrible tragedy millions of Colombians live each day, uprooted and exiled in their own country.

**Alfred Molano, "From Exile"**

This book is proof that today's Latin American literature reaches far and digs deep. Alfredo Molano isn't a novelist or poet, but rather a sociologist who realized that "the way to understand wasn't to study people but to listen to them." The testimonies that Molano collects are a point of departure for a work that knows how to relate, like few others can, Colombia's pain, in a language that has more colors than the rainbow.

**Eduardo Galeano, author, *Open Veins of Latin America***

ALFREDO MOLANO is a well-known Colombian journalist, author, *Loyal Soldiers in the Cocaine Kingdom*.
